Section 1: General introduction

About this Qualification Specification

This Qualification Specification contains all the mandatory units and assessments you will need to complete as part of the qualification. As well as the mandatory units there is a choice of 'optional units' which form part of the qualification. These are available on the NCFE website. Your tutor or assessor will either supply you with copies of your chosen units or direct you to the relevant page on the website so you can download them. This Specification also contains extra information for your tutor or assessor.

How the qualification works

This qualification is made up of units each representing a small step of learning. This allows the qualification to be completed at your own pace.

All of the units achieved can be 'banked'. This means that if you want to take another qualification which includes the same units you do not have to take them again.

Each unit has:

- a **level** - *shows how difficult it is*
- a **credit value** - *one credit represents about 10 hours' work*
- a **unit aim** – *explains what is covered in the unit*
- **learning outcomes** – *cover what you need to do (skills) or what you need to understand (knowledge)*
- **assessment criteria** – *what you need to show (evidence)*

Each learning outcome is linked to a number of assessment criteria. Evidence must be provided for all the assessment criteria to gain the unit.

Learning outcomes The learner will:	Assessment criteria The learner can:	Evidence record e.g. page number & method	Assessor judgement achieved Initial and date
1. Understand why effective communication is important in the work setting.	1.1. Identify the different reasons people communicate.		
	1.2. Explain how communication affects relationships in the work setting.		

Example shows how outcomes and criteria are laid out in the Unit Assessment Records (UARs) in Section 3.

Total Qualification Time/Guided Learning: Definitions

Total Qualification Time (TQT) is comprised of the following two elements:

- the number of hours which we have allocated to a qualification for Guided Learning
- an estimated number of hours a Learner will reasonably be likely to spend in preparation, study, or any other form of participation in education or training, but not under the immediate supervision of a tutor or assessor.

Centres can decide how to allocate the TQT across the units of a qualification.

Guided Learning (GL)

- Guided Learning (GL) and TQT apply to the qualification as a whole.
- We use GL to refer to the estimated guided learning hours at unit level.

Barred units, equivalencies and exemptions

This qualification may contain barred units, equivalencies or exemptions. These will be identified in the summary for each unit.

Recognition of Prior Learning (RPL)

Centres may recognise prior learning at their discretion if they are satisfied that the evidence provided meets the requirements of a qualification. Where RPL is to be used extensively (for a whole unit or more), advice must be given by your External Quality Advisor.

Credit transfer

Where a learner has already achieved a unit with credit, we will recognise that prior learning and will allow the credit to be transferred onto a new qualification, provided that the units have the same Ofqual reference number.

Understanding learning outcomes

There are two main types of learning outcome:

- **Skills** that can be performed
- **Knowledge** that can be learnt.

Sometimes they can cover a combination of the two.

Competence / Skills based learning outcomes:

- generally begin with 'Be able to' and the assessment criteria usually show that the evidence must be observable
- are about being able to perform a variety of different tasks as part of your work role **within** a real work environment.

Knowledge based learning outcomes:

- generally begin with 'Know', 'Understand' or 'Know how to' and the assessment criteria will reflect that evidence can be recorded in ways other than observation, although observation remains a valid method (however, some learning outcomes could be purely knowledge based and do not need to be in the context of a work role).

For your convenience, Knowledge-only units are indicated by a star in both the Unit Achievement Log and at the top of the units.

If a unit is not marked with a star, a unit has some Skills/Competence component(s).

Recommended assessment methods

A recommended range of assessment methods has been identified, which may be used for the units in this qualification. This gives the opportunity for different learning styles and individual needs of learners to be taken into account.

If you are proposing to use an assessment method that is not included within the recommended list you should contact your Customer Quality Advisor with full details of your proposed method. It will need formal approval from us before it can be used.

Please refer to the notes relating to **Expert Witness testimony** and **simulation** which follow this table.

Ref	Assessment Method	Assessing Competence /Skills	Assessing Knowledge / Understanding

This method must be used with professional discretion, and only selected when observation would not be appropriate. Those providing an expert witness testimony must be lead practitioners with experience of making judgements around competence. The circumstances that may allow for an expert witness testimony include:

- when assessment may cause distress to an individual, such as supporting a child with a specific need
- a rarely occurring situation, such as dealing with an accident or illness
- confidential situations, such as Safeguarding Strategy meetings, where it would be inappropriate for an assessor to observe the learner's performance.

** **Simulation.** A learner's Portfolio of Evidence may only include simulation of skills where simulation is permitted by the relevant assessment strategy/principles.

Assessment strategies and principles relevant to this qualification

The units we offer have been developed in line with the specific **assessment strategies or principles** of different Sector Skills Councils (SSCs) or by us where there is no SSC lead.
